Scenario 2: General Functionality (CRUD)

Objective: Verify Product and Order operations. **Pre-conditions:** Application running.

1. **Navigate:** Go to `http://127.0.0.1:5000/products`.
2. **Add Product:** Fill form (Name: "Test Item", Price: 50.0) -> Submit.
3. **Verify:** "Test Item" appears in the product list.
4. **Create Order:** Go to `http://127.0.0.1:5000/orders`.
5. **Action:** Click "Create Test Order".
6. **Verify:** New order appears in the list with Status "pending".
